 - Teams presentation
 - CIPS anthem
 - Statement on Olympic ideals
 - Opening of the championship by Edoardo Ferrero
 - Move to Karting , opening dinner

Competition day coordination

- Competition Sectors
 - Description : google maps with sector and beat identification
 - Special features
 - Use of alternate bank or islands
 - ...
- Transport
 - Types of transport available to get to beats
 - Timings : next slide
 - Place of departure: Hotel Karting
 - Use of official tpt only by competitors !
- Communications
 - Colored lanyards iaw the CR 2021
- Logistics
 - Lunch arrangements (Sturba , lunch pack provided on location)
 - Water distribution !!!
-

TIMINGS OF DEPARTURE FROM HOTEL (TUESDAY-
FRIDAY)

Sector I(River Buna)-15:30

Sector II(River Sturba)-10:00

Sector III(Mostar Lake)-15:00

Sector IV(River Buna)-15:30

Sector V(River Sturba)-10:00

TIMINGS OF DEPARTURE FROM HOTEL(SATURDAY)

Sector I(River Buna)-10:00

Sector II(River Sturba)-6:30

Sector III(Mostar Lake)-9:30

Sector IV(River Buna)-10:00

Sector V(River Sturba)-6:30

Team captains do's & don'ts

Know the rules and the it's modications !

 - Form is valid for 1 day only

Closing ceremony coordination

- Venue
 - Timings 21:00
 - Place :Hotel Karting
- Description of scenario (cfr ceremonies guideline)
- Closing banquet details

Draw

THE COMPETITOR DRAWING ALGORITHM: ENSURING FAIRNESS THROUGH MATHEMATICAL LOGIC

SYSTEM REQUIREMENTS & SAFEGUARDS

THE 'BLACK BOX' PRINCIPLE
To prevent interference, the algorithm operates independently of the user, providing a final result with no possibility of manual adjustment during the process.

BLIND DRAW METHODOLOGY

The system has no information about specific competitors; it only recognizes team affiliations to ensure unbiased distribution.

RANDOMIZED SELECTION

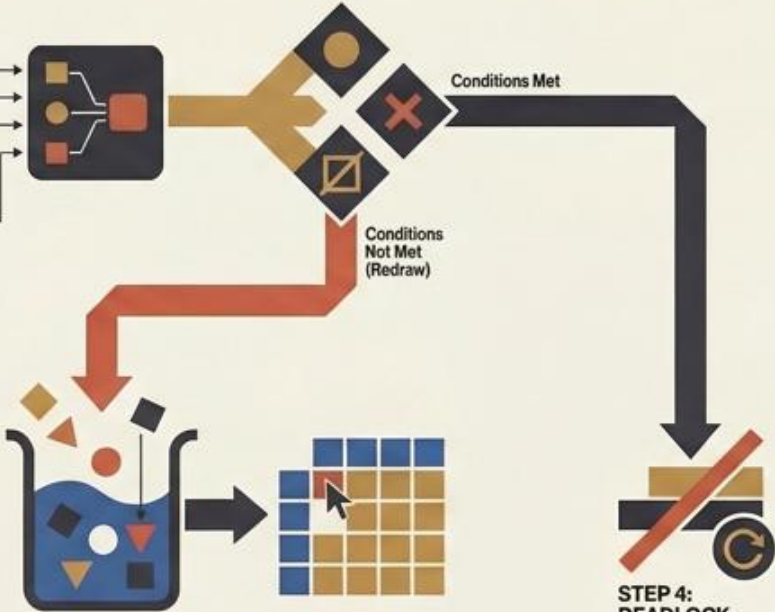

The algorithm utilizes a mathematical "random drawing without replacement" method to maximize the entropy of the results.

THE DRAWING PROCESS FLOW

STEP 1: DEFINE BOUNDARY CONDITIONS

STEP 3: CONDITION VALIDATION LOOP

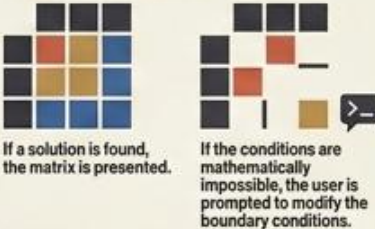

STEP 2: POOL INITIALIZATION & DRAWING

OUTCOMES & VERIFICATION

3,000

3,000 ITERATION THRESHOLD
The algorithm is permitted to restart the entire drawing process up to 3,000 times to find a valid mathematical solution before timing out.

RESOLUTION PHASE

FINAL INTEGRITY CHECK

To prevent tampering, the final competitor names are only combined with the algorithm's letters (A-R) after an independent captain's meeting draw.

Draw for 30th FIPS-Mouche European Fly Fishing Championship

- Proces
- Each captain will come forward to make the physical draw for the team
 - Step 1 : verify that names are correct
 - Step 2 : identify reserve (if any)
 - Step 3 : draw of the team number
 - Step 4 : draw group for each team member
- At end of draw the groups table will be made available , published on website
